The Future of Educational Communications

Instantly communicate with the entire campus community.

- Indoor and outdoor campus-wide messaging
- Bilingual message notification
- Easy to implement
- Instantaneous visual messages improves on and off-premise campus relations
- One software controls all displays from the convenience of one PC

- Safe and secure networking with existing PC systems
- LED technology consumes less power than incandescent lights, using 1/40th the power
- Communicate via LAN / Ethernet / Wireless / Modem

One software controls all indoor & outdoor signs
